SEVEN FUNDAMENTAL TENETS OF THE CONSTITUTION PARTY

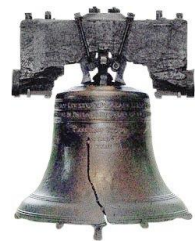

Life – Right to life for all human beings: from fertilization to natural death.

Gun Ownership – *A well-regulated Militia, being necessary to the security of a free State, the right of the people to keep and bear Arms, shall not be infringed.*

Personal Liberty – Constrain the Government to its enumerated powers so that it does not impede the Liberty of the People whom it serves.

Family – Family is the Bedrock of a healthy Society. It is imperative that government maintains a favorable position to the divinely instituted nuclear family, not one that leads to its destruction.

Property Rights – Each individual possesses the right to own and steward personal property without government burden.

Originalist Interpretation – Interpret the Founding Documents according to the meaning originally intended by the Founding Fathers.

Defend National and State Sovereignty – Defend the U.S. borders against invasion. Restore the Tenth Amendment limitations on U.S. Government power.
